TAKING IT TO THE STREETS

facebook.com/2thestreets

Founded in 2001 by Scott Lamaster, **TAKING IT TO THE STREETS** provides on-site meals and support for first responders, disaster victims and the homeless throughout the Greater Kansas City area and regionally.

Whenever a disaster strikes that requires a significant first responder presence, you'll likely see the **TAKING IT TO THE STREETS** support vehicles on the scene providing meals, hydration, and a safe place for officers and firefighters to get much-needed rest.

For over 20 years, they have also helped meet the needs of the less fortunate, including preparing and serving meals to the homeless.

Previous benefit tournaments provided the resources for **TAKING IT TO THE STREETS** to acquire a custom mobile kitchen that can feed hundreds, and all net proceeds generated this year will again support this amazing organization.
