

SAVINGS ACCOUNT MUST-HAVES \$

Finding the right savings account where our money can grow shouldn't be difficult. A savings account should help us save to become emergency-proof and do great things with money down the road. Here's what our savings account should do:

ELECTRONIC STATEMENTS

Lose all those paper bank statements and have the monthly report stored online. We'll want to be sure we can access previous months for record keeping and budgeting.

MOBILE/ONLINE BANKING

Keep control of our money on the go. Be able to check account balances, transfer funds, deposit checks, view online statements, get text alerts, and much more.

AUTOMATIC TRANSFERS

Never forget to put money into savings after payday. Let's be sure we can schedule money to move from checking to savings.

COMPETITIVE INTEREST RATE

Our money should do some good while it's sitting in our savings account. That account should pay us so we can get that savings growing.
