

Savings Account Must-Haves

Finding the right savings account to grow your money is no easy feat. This type of account should help you save for emergencies and prepare to achieve big goals. Here are features to look for in a savings account.

Electronic statements

Ditch the paperwork and access monthly bank statements online. Even better, see if it's possible to access previous statements for record keeping and budgeting.

Digital banking

Manage your money anywhere, anytime. You can check account balances, transfer funds, deposit checks, view history, and much more with a mobile app or online banking platform.

Automatic transfers

Never forget to save after payday. Boost your balance easily with a repeated automatic transfer from checking to savings.

Competitive interest rate %

One benefit of a savings account is the ability to earn interest. Look for an account with a competitive interest rate, and even better, find one that increases the rate as your balance grows.
